Accessing Federal Programs: A Guidebook for Charter School Operators and Developers

U.S. Department of Education
March 2022
The National Charter School Resource Center (NCSRC) provides technical assistance to federal grantees and resources supporting charter sector stakeholders. NCSRC is funded by the U.S. Department of Education and managed by Manhattan Strategy Group in partnership with WestEd.

This report was produced by NCSRC.

This publication was produced in whole or in part with funds from the U.S. Department of Education under contract number GS10F0201T. The content does not necessarily reflect the position or policy of the U.S. Department of Education, nor does the mention of trade names, commercial products, or organizations imply endorsement by the federal government.

Chapter 1 | Introduction

About This Guidebook

The U.S. Department of Education (ED) funds and administers education programs for a variety of purposes and recognizes and rewards excellence and improvement by students, schools, and communities. As publicly funded schools, charter schools are eligible to apply for federal formula grants, as well as discretionary grants administered by various ED program offices. These represent a large and important source of federal support for charter schools.

This guidebook provides basic information about accessing the range of federal programs and resources available to charter schools. Its primary purpose is to provide brief and helpful guidance so that charter school operators and developers can identify and access funds available to qualifying public districts and schools. It does not create any new rights or responsibilities.

The programs included in this guidebook, along with many others, can also be found on ED’s website.

1. An overview of the types of ED grant programs is available here.
2. A complete list of program summaries is available here.
3. A summary of federal grantmaking at ED and details on application, management, and closeout is available here.
4. The National Charter School Resource Center (NCSRC) has a website that provides updated lists of grant opportunities that may be of interest to charter schools and is available here.

Given the legal complexity of many of these programs, readers must consult the full text of statutes, regulations, and nonregulatory guidance for specific requirements. In addition, state departments of education should also be consulted for additional information and assistance concerning state rules and regulations that may apply to the administration of federal funds.

The guidebook is organized as follows:

- **Chapter 1**: Provides a brief overview of ED, the Charter School Programs (CSP), and the federal funding process
- **Chapter 2**: Contains a matrix that introduces the 24 selected federal programs, followed by in-depth profiles and contact information for each of these programs
- **Chapter 3**: Contains contact information for federally funded technical assistance providers and other resources, as well as for state departments of education and state charter support organizations

Other Sources of Information on Federal Programs

The information for this guidebook draws from several, more extensive sources of information. For a detailed list of federal assistance listings, please visit the General Services Administration System for Award Management (SAM) website. Upcoming competitions for all federal grant programs, whether in ED or other agencies, are announced through the Federal Register and on the U.S. Department of Education website.
Education Federal Register Documents webpage. ED maintains a website that posts current funding opportunities, which you can view here. The National Charter Schools Resource Center also includes funding opportunities on its website and administers an email newsletter that covers many of these announcements. You can subscribe to the funding newsletter here.

Overview of the U.S. Department of Education

The U.S. Department of Education (ED) establishes policy and administers programs of federal assistance in education. ED’s mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access. It does this by supplementing and complementing the efforts of states and communities to improve the quality of education; playing a leadership role in the national dialogue over how to improve the results of our education system for all students; and funding a variety of programs that cover many areas of education.

The current organization of ED is shown in Figure 1. Each program office has responsibility for overseeing a portion of the programs established by Congress and administered by ED. For discretionary grant programs, the program office conducts or oversees the review of applications, makes recommendations for funding, and awards grants. The main grantmaking offices with programs that can support charter schools are listed below:

- The Office of Elementary and Secondary Education
- The Office of English Language Acquisition
- The Office of Postsecondary Education
- The Office of Special Education and Rehabilitative Services
- The Office of Career, Technical, and Adult Education

The Office for Civil Rights (OCR) does not administer any grant programs; however, the office enforces federal civil rights laws that apply to recipients of federal financial assistance from ED, including grant and subgrant recipients.
Charter School Programs

The **Office of Charter School Programs (CSP)** within ED’s Office of Elementary and Secondary Education administers several programs specifically aimed at supporting charter schools. CSP provides funds to

- create promising new public charter schools,
- replicate high-quality public charter schools, and
- disseminate information about effective practices within charter schools.

CSP also administers funding programs to help charter schools

- find suitable facilities,

---

1 Source: [https://www2.ed.gov/about/offices/or/index.html](https://www2.ed.gov/about/offices/or/index.html)
• reward high-quality charter schools that form exemplary collaborations with traditional public schools, and
• invest in other national initiatives that support charter schools.

In 1994, Congress authorized the creation of the Charter School Programs (CSP) under Title X of the Elementary and Secondary Education Act of 1965 (ESEA). The authorizing legislation of the program was amended by H.R. 2616 and signed into law by President Clinton through the Charter School Expansion Act of 1998. The CSP was reauthorized by the No Child Left Behind Act of 2001 as Title V, Part B, Subpart 1 of the ESEA. Most recently, the CSP was reauthorized as Title IV, Part C of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act of 2015 (ESSA), Sections 4301-4311.

Under the ESSA, the purpose of the CSP is as follows:

• Improve the United States education system and education opportunities for all people in the United States by supporting innovation in public education in public school settings that prepare students to compete and contribute to the global economy and a stronger nation
• Provide financial assistance for the planning, program design, and initial implementation of charter schools
• Increase the number of high-quality charter schools available to students across the United States
• Evaluate the impact of charter schools on student achievement, families, and communities, and share best practices between charter schools and other public schools
• Encourage states to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount states typically provide for traditional public schools
• Expand opportunities for children with disabilities, English learners, and other traditionally underserved students to attend charter schools and meet challenging state academic standards
• Support efforts to strengthen the charter school authorizing process to improve performance management, including transparency, oversight, and monitoring (including financial audits), and evaluation of such schools
• Support quality, accountability, and transparency in the operational performance of all authorized public chartering agencies, including state education agencies (SEAs), local education agencies (LEAs), and other authorizing entities

Forty-five states, the District of Columbia, Guam, and Puerto Rico have passed charter school laws. According to the National Alliance for Public Charter Schools, approximately 7,500 charter schools serve nearly 3.3 million students nationwide. As the charter school movement has expanded, the CSP budget has grown from $6 million in fiscal year (FY) 1995 to $440 million in FY 2021. In general, the bulk of CSP funds supports new charter schools through grants for the opening of new schools and replicating or expanding high-quality charter schools.

Grants for Charter School Startup, Replication, and Expansion

State Entities Grants. The State Entities Grants (formerly State Education Agency Grants) are awarded competitively to state entities, which then award subgrants to individual charter schools to meet planning or implementation costs for the operation of new, replicated, or expanded high-quality charter schools. A small percentage of a State Entity Grant must be used to provide technical assistance to eligible charter school applicants and authorized public chartering agencies to support subgrant activities and improve authorizing quality. An SE grantee may be an SEA, a charter school support organization, or another state entity. Current SEA grantees are listed here. However, only one state entity in a state may use funds under this grant program at a time. Eligibility of each state for a new SE grant is found here.

“In awarding these grants under Sections 4303(g)(2)(A)–(F) of the Every Student Succeeds Act of 2015 (ESSA), the Secretary gives priority to state entities to the extent that they meet the following criteria:

(A) The State entity is located in a State that—
   (i) allows at least one entity that is not a local educational agency to be an authorized public chartering agency for developers seeking to open a charter school in the State; or
   (ii) in the case of a State in which local educational agencies are the only authorized public chartering agencies, the State has an appeals process for the denial of an application for a charter school.

(B) The State entity is located in a State that ensures equitable financing, as compared to traditional public schools, for charter schools and students in a prompt manner.

(C) The State entity is located in a State that provides charter schools one or more of the following:
   (i) Funding for facilities.
   (ii) Assistance with facilities acquisition.
   (iii) Access to public facilities.
   (iv) The ability to share in bonds or mill levies
   (v) The right of first refusal to purchase public school buildings.
   (vi) Low- or no-cost leasing privileges.

(D) The State entity is located in a State that uses best practices from charter schools to help improve struggling schools and local educational agencies.

(E) The State entity supports charter schools that serve at-risk students through activities such as dropout prevention, dropout recovery, or comprehensive career counseling services.

(F) The State entity has taken steps to ensure that all authorizing public chartering agencies implement best practices for charter school authorizing.”

In addition, specific preference priorities may be included in grant competitions. All priorities are described in the Notice Inviting Applications.

Developer Grants. If a state currently does not have a CSP State Entity Grant, ED may award a grant directly to an eligible applicant (i.e., charter school) in that state for the opening of new schools.

or replication or expansion of high-quality charter schools. These grants are awarded under the Developer Grants (formerly, Non-SEA Grants) competition. New grant competitions are generally held every year. However, no grant competition was held in 2021; the most recent competition took place in 2020. Some of the competitive preference priorities for the 2020 Developer Grants competition included opening, replicating, or expanding a high-quality charter school in a rural community, in a qualified Opportunity Zone, or to serve Native American students. The program also prioritized single-school operators, novice applicants, and applicants receiving an investment from a qualified opportunity fund.

Charter Management Organization Replication and Expansion Grants. This CSP program supports new schools created by high-performing charter management organizations (CMOs) via the Replication and Expansion of High-Quality Charter School Grants (CMO Grants). As with the SE and Developer grants, CMOs use these funds to purchase technology and curricular and instructional materials, as well as to fund professional development activities for individual charter schools and build network supports to address their growth efforts. Under ESSA Sections 4305(b)(5)(A)–(D), “the Secretary gives priority to eligible entities that:

(A) plan to operate or manage high-quality charter schools with racially and socioeconomically diverse student bodies;
(B) demonstrate success in working with schools identified by the State for comprehensive support and improvement;
(C) propose to use funds—
   (i) to expand high-quality charter schools to serve high school students; or
   (ii) to replicate high-quality charter schools to serve high school students; or
(D) propose to operate or manage high-quality charter schools that focus on dropout recovery and academic reentry.”

New grant competitions are generally held every year. However, no grant competition was held in 2021; the most recent competition took place in 2020. Priorities for the 2020 CMO Grant competition included replicating or expanding in a rural community, serving a low-income demographic, and operating in a qualified Opportunity Zone, among others.

Grants for Charter School Facilities

CSP seeks to enhance the ability of charter schools to obtain facilities financing by administering two programs: the Per-Pupil Facilities Aid Program and the Credit Enhancement for Charter School Facilities Program.

The State Charter Schools Facilities Incentive Grants Program (also known as the Per-Pupil Facilities Aid Program) was created under the Elementary and Secondary Education Act of 1965 to address inadequate facilities, one of the major obstacles to charter school implementation. The State Charter School Facilities Incentive Grants Program provides grants to eligible states to help them establish and enhance or administer a per-pupil facilities aid program that is specified in state laws.

---

4 https://www.congress.gov/114/plaws/publ95/PLAW-114publ95.pdf
5 In the ESSA, facilities financing assistance is addressed in ESSA, Pub. L. No. 114-95, § 4304(k); 20 U.S.C. § 7221c.
law for charter schools in the state, and provides annual financing on a per-pupil basis for charter school facilities. ED awards competitive grants of up to five years to eligible states.

The Per-Pupil Facilities Aid Program is a program in which a state makes payments on a per-pupil basis to charter schools to provide them with financing that must include or be dedicated solely for the funding of facilities. For a state to be eligible to receive a grant, the state’s program must be specified in state law and provide annual funding on a per-pupil basis for charter school facilities.

The maximum federal share of facilities funds decreases each year (from 90% in the first year to 20% in the fifth year) and phases out entirely after five years. The priorities under the regular CSP grant program apply to applications for funds under this program. The most recent competition was held in 2019. The 2019 competition featured three competitive preference priorities, including Spurring Investment in Opportunity Zones, State Support for Charter Schools, and Novice Applicants.6

**The Credit Enhancement for Charter School Facilities Program** provides assistance to help charter schools meet their facility needs.7 Under the Credit Enhancement for Charter School Facilities Program, funds are provided on a competitive basis to public and nonprofit entities and consortia of those entities to leverage other funds and help charter schools obtain school facilities through such means as purchase, lease, and/or donation. Grantees may also use grants to leverage funds to help charter schools construct and renovate school facilities.

To help leverage funds for charter school facilities, grant recipients may, among other things, guarantee and insure debt to finance charter school facilities; guarantee and insure leases for personal and real property; facilitate a charter school’s facilities financing by identifying potential lending sources, encouraging private lending, and other similar activities; and establish charter school facility “incubator” housing that new charter schools may use until they can acquire a facility on their own. New award opportunities are generally available annually. The most recent Credit Enhancement for Charter School Facilities competition took place in 2021 and had no preference priorities.

**CSP Funding for Dissemination, Research, and Technical Assistance**

In addition to awarding grants to assist in the development of charter schools and financing of charter school facilities, ED supports dissemination, research, and technical assistance activities for charter schools. Offered periodically, current National Dissemination Grant awards address best practices in charter school facilities, authorizing, and other innovations. Past recipients include national groups such as the National Association of Charter School Authorizers (NACSA) and the National Charter Schools Institute, as well as state charter support groups such as the California Charter School Association. One of the main information dissemination efforts supported by ED is the National Charter School Resource Center.

---

7 This program was originally established by the ESEA. The ESSA includes a section called Facilities Financing Assistance, but there is not a specific reference to the Credit Enhancement for Charter School Facilities Grant program.
Other Program Opportunities – COVID-19 Response

Since the date of the national emergency declaration on March 13, 2020, the federal government has allocated significant funding to ED to alleviate the negative impacts of COVID-19. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law, allocating $30.75 billion to ED to help support schools throughout the country. In December 2020, the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA Act) contributed another $81.9 billion. Most recently, in March 2021, the American Rescue Plan Act (ARP Act) added more than $170 billion to support ongoing COVID-19 response and recovery efforts in education.8

The ARP Act will deliver critical aid to states (as well as Puerto Rico and the District of Columbia), districts, schools, educators, students, and families as the country continues to recover from the COVID-19 pandemic. ED is committed to supporting SEAs and school districts in using these unprecedented resources to promote safe school operations and equity-driven, sustainable, evidence-based programs to serve students—especially those who are the furthest from opportunity—and to continue to strengthen teaching and learning. The current program initiatives that can be used to support charter schools are described below.

American Rescue Plan Elementary and Secondary School Emergency Relief Fund (ARP ESSER)

ARP ESSER provides nearly $122 billion to states and school districts to help safely reopen and sustain the safe operation of schools and address the impact of the coronavirus pandemic on the nation’s students. ARP ESSER is a direct formula grant, meaning that the funds are allocated directly to SEAs based on the number of children eligible for Title I support and the state per-pupil cost of education.

State Allocation of Funds. A state must subgrant at least 90% of its total ARP ESSER allocation to local education agencies (LEAs) (including charter schools that are LEAs) in the state to help meet a wide range of needs arising from the coronavirus pandemic, including reopening schools safely, sustaining their safe operation, and addressing students’ social, emotional, mental health, and academic needs resulting from the pandemic. A state is required to reserve funds for activities and interventions that respond to students’ academic, social, and emotional needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups:

- At least 5% of the total allocation for evidence-based interventions that address learning loss
- At least 1% of the total allocation for evidence-based summer enrichment programs
- At least 1% of the total allocation for evidence-based comprehensive after-school programs

A state may reserve up to half of 1% of the total allocation for administrative costs and emergency needs as determined by the state to address issues related to COVID-19.

LEA Use of Funds. An LEA must reserve at least 20% of the total award from the state for interventions that address learning loss and ensure those interventions respond to student social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups. The remaining LEA funds may be used for a wide range of

---

8 Source: https://covid-relief-data.ed.gov/
activities to address needs arising from the coronavirus pandemic. Specifically, the funds may be used to develop and implement public health protocols on reopening and operating schools to effectively maintain the health and safety of students, educators, and other staff. A more detailed list of activities can be viewed in the ARP ESSER fact sheet here.

**American Rescue Plan Elementary and Secondary School Emergency Relief – Homeless Children and Youth (ARP–HCY)**

In recognition of the extraordinary impacts of the COVID-19 pandemic on students experiencing homelessness, the ARP included $800 million to support the specific needs of homeless children and youth via the ARP-HCY fund. SEAs and LEAs must use ARP-HCY funds to identify homeless children and youth, to provide homeless children and youth with wraparound services to address the challenges of COVID-19, and to enable homeless children and youth to attend school and fully participate in school activities.

**School Emergency Response to Violence (Project SERV)**

Project SERV is a long-standing program that provides short-term education-related services—including counseling and referral to mental health services, as needed—to LEAs and institutions of higher education (IHEs) in which the learning environment has been disrupted by a violent or traumatic crisis. In response to the pandemic, the CARES Act increased funding for Project SERV by $100 million for sanitizing facilities and for expanding distance learning. More information about this grant can be accessed here.

**The Project to Support America’s Families and Educators (Project SAFE)**

**Project SAFE** is a new grant program under the School Safety National Activities. This program is intended to improve student safety and well-being by providing additional funding to LEAs, including charter schools that are LEAs, that have had funds withheld by their state or are otherwise financially penalized for implementing strategies to prevent the spread of COVID-19 consistent with the Centers for Disease Control and Prevention (CDC) guidance. The application for grants under the Project SAFE program was made available on September 20, 2021. Applications will be reviewed by program staff and approved on a rolling, expedited basis contingent on the availability of funding. The Notice Inviting Applications (NIA) with detailed guidance can be viewed here.

**The Federal Funding Process**

The size and scope of federal grant programs are set by legislation from the U.S. Congress, and then the programs are administered by federal agencies. ED and other branches of the federal government are authorized to award and disburse funds.

ED distributes most federal public education funds directly to state departments of education, which, in turn, disburse the funds to individual districts, schools, and other eligible entities. Under some programs, however, the program statute directs ED to distribute funds to local school districts through a formula. Federal legislation usually defines an eligible recipient of federal funding at the state level as a state education agency (SEA). An eligible recipient at the district- and school-level is generally defined as a local education agency (LEA). Some funds are also available for community-based
organizations (CBOs); charter schools may be eligible under this category, as well. After funds are distributed to an SEA, they are then either allocated through a formula or on a discretionary (competitive) basis to LEAs or other eligible applicants. The type of allocation is usually defined in the authorizing legislation. To find out more about how an SEA distributes funds under a specific program, contact your SEA representative directly. All official state and territorial representatives for charter schools are listed in Chapter 3.

To learn more about the requirements that charter schools, LEAs, and state agencies must meet regarding federal grants, see the nonregulatory guidance “How Does a State or Local Educational Agency Allocate Funds to Charter Schools that are Opening for the First Time or Significantly Expanding their Enrollment” and “Charter Schools Program Nonregulatory Guidance (updated January 2014).”

**Formula Grants.** Federal funds provided under a formula grant program are allotted to all eligible applicants according to a prescribed formula generally established by law and ED. Eligibility for such funds is based on a set of criteria such as population, per-capita income, specialized clientele, some other measure of need, or a combination of measures specified in the authorizing legislation.9

**Discretionary Grants.** A discretionary grant, otherwise known as a direct or competitive grant, is one that ED or another branch of the federal government awards through a competitive process. Under such grants, the secretary can exercise a certain amount of discretion, consistent with the authorizing legislation, to determine which applications best address the program requirements and are therefore most worthy of funding. These programs may require the establishment of criteria for eligibility, for program size and growth, and some mechanism for competition among applicants.

Depending on the particular program, SEAs, LEAs, private nonprofit organizations, and colleges and universities may be eligible to receive competitive grants.

Each time ED invites applications for a new grant award competition, it publishes a Notice Inviting Applications in the *Federal Register*. The general requirements and selection criteria for discretionary grants are available through the various federal program offices or in federal regulations. For some discretionary grant programs, ED publishes specific program regulations in the *Federal Register* and codifies them annually in the Code of Federal Regulations (CFR).10 In cases where specific regulations are not available, applicants should consult the Education Department General Administrative Regulations (EDGAR).11 For more information on the application process, please consult Discretionary

---

9 Among the other criteria, there may also be provisions for the reallocation of unused funds or restrictions on the rate of program growth or decline. Also specified may be the percentage of program costs that the federal government will share with the recipient population to be served. Depending on the authorizing legislation, the discretion of the federal agency charged with disbursing funds is limited to applying the formula and setting rules for operation of the program within the limits of the formula.

10 [https://www.govinfo.gov/app/collection/cfr](https://www.govinfo.gov/app/collection/cfr)

Variations in State Laws and the Legal Status of Charter Schools

One factor that affects the degree to which charter schools may access federal funds is the nature of the state’s rules governing charter schools. State laws and regulations that establish charter schools vary widely among states. Of particular importance to a charter school in applying for federal funding is the exact legal status of a charter school as defined by the state’s authorizing legislation.

In some states, charter schools are established as independent legal entities with a legal status separate from that of the agency that grants the charter. In such cases, when receiving state funding or federal dollars, charter schools are treated as independent LEAs or school districts and receive funding directly through the appropriate SEA. In other states, charter schools are constituted as a legal branch of a local or “parent” school district and, thus, are considered dependent schools and may receive funding only through the parent school district.

The variation in the legal status of a charter school affects the process by which a given charter school participates in a formula grant program or applies for or receives a discretionary grant. For example, if a charter school is considered an independent LEA by state law, the school can apply directly to the SEA (or ED under programs in which funds flow directly to LEAs) for many of the formula-driven grant programs. If a school is not considered an independent LEA, the school most likely will participate in the program through its parent district. Only those charter schools that meet the federal definition of a charter school as specified in Section 4310(2) of the ESSA may receive federal funding under any of the charter school programs, whether that federal funding is provided directly (such as to developer grantees) or through subgrants made by CSP grantees (such as SE grantees).

Given these complexities, the route federal funding takes before reaching an individual school differs from state to state and from school to school. For detailed information on the variation of the legal status of charter schools and how it can affect access to federal funding, please see the United States General Accounting Office’s Report to Congressional Requesters, Charter Schools: Federal Funding Available but Barriers Exist.

Responsibilities of Entities Utilizing Federal Funds

Federal Waivers. Under several education laws, states, school districts, and other educators have flexibility in how they may use federal program funds to support state and local school improvement efforts. ED has several different waiver authorities, but the most relevant for ED’s charter school programs is the waiver authority granted under Section 4303(d)(5) of the ESSA. In general, under that authority the secretary may waive any federal statutory or regulatory requirement over which the secretary exercises administrative authority, except those requirements relating to the elements of a charter school described in Section 4310(2) of the ESSA. Under Section 4310(2), among other things,

For more information, please see the Flexibility and Waivers home page on the ED website. For questions regarding waiver provisions, contact the Office of Planning, Evaluation, and Policy Development by email at ods.ppss@ed.gov. To ascertain whether there are waivers for state program rules, contact your state representative.

Overview of Federal Legislation

To help charter schools navigate the complex world of federal education programs, we provide in this section a summary of each of the major pieces of federal authorizing legislation for the programs listed in this guide.

**Every Student Succeeds Act of 2015.** The Every Student Succeeds Act (ESSA) was signed into law in December 2015, reauthorizing the Elementary and Secondary Education Act of 1965 (ESEA). The ESSA includes provisions that will help to ensure success for students and schools. The law

- advances equity by upholding critical protections for America’s disadvantaged and high-need students;
- requires that all students in America be taught to high academic standards that will prepare them to succeed in college and careers;
- ensures that vital information is provided to educators, families, students, and communities through annual statewide assessments that measure students’ progress toward those high standards;
- helps to support and grow local innovations—including evidence-based and place-based interventions developed by local leaders and educators—consistent with Investing in Innovation and Promise Neighborhoods;
- invests in increasing access to high-quality preschool; and
- maintains an expectation that there will be accountability and action to effect positive change in the lowest-performing schools, where groups of students are not making progress and where graduation rates are low over extended periods of time.

**No Child Left Behind Act of 2001.** The No Child Left Behind Act (NCLB), signed by President George W. Bush on January 8, 2002, reauthorized the ESEA. The NCLB Act amended the ESEA by incorporating increased accountability for states, school districts, and schools; greater choice for parents and students, particularly those attending schools in need of improvement; more flexibility for states and LEAs in the use of federal education dollars; and a stronger emphasis on using educational
programs and approaches that have been proven effective. The NCLB Act itself, however, does not authorize programs.\textsuperscript{14}

**Elementary and Secondary Education Act of 1965.** The 1965 Elementary and Secondary Education Act (ESEA) was created as part of President Lyndon Johnson’s War on Poverty Program. This massive legislation marked a significant change on the part of the federal government regarding education policy. The law established the process for prioritizing money for the education of specific categories of students, and hence established the use of categorical education programs at a national level. Many programs are currently authorized by the ESEA, including the following:\textsuperscript{15}

**Individuals with Disabilities Education Act.** The Individuals with Disabilities Education Act (IDEA), originally passed in 1975 as the Education for All Handicapped Children Act, ensures that all children with disabilities have access to a free, appropriate public education designed to meet their unique needs and prepare them for employment and independent living. The law also ensures that the rights of children with disabilities and the parents of such children are protected. The IDEA law was reauthorized in 2004.\textsuperscript{16}

Funds under Part B of the IDEA are allocated to SEAs, and through them to LEAs, to assist in providing special education and related services to children with disabilities residing in the state. Section 611 of Part B of the IDEA, the Grants to States Program, provides federal financial assistance to states to provide special education and related services to children with disabilities beginning at age 3 and possibly lasting to their 22nd birthday, depending on state law or practice. The Preschool Grants program under Section 619 of Part B of the IDEA provides additional federal financial assistance to states for providing special education and related services to children with disabilities age 3 through 5, inclusive, and, at a state’s discretion, to 2-year-old children with disabilities who will turn 3 during the school year. The Infants and Toddlers with Disabilities Program under Part C of the IDEA provides funds to states for the development and implementation of a statewide system of early intervention programs for infants and toddlers with disabilities in the state from birth through age 2, inclusive, and their families.

**McKinney-Vento Homeless Assistance Act.** The McKinney-Vento Homeless Assistance Act, formerly known as the Stewart B. McKinney Homeless Assistance Act, was initially passed in 1982 and was reauthorized in January 2002 by the NCLB Act.

The intent of the Education for Homeless Children and Youths Program, Title VII-B of the McKinney-Vento Homeless Assistance Act, is to ensure that all homeless children and youth have access to the same free, appropriate public education, including a public preschool education, as provided to other children and youth. The act calls on states to review and revise their laws and policies to eliminate barriers to the enrollment, attendance, and success in school of homeless children and youth and to include homeless students in the mainstream school environment.\textsuperscript{17}

\textsuperscript{17} McKinney-Vento Homeless Assistance Act, Pub. L. No. 100-77; 42 U.S.C. § 11301, et seq.
**National School Lunch Act.** The Richard B. Russell National School Lunch Act of 1946 created the modern school lunch program. The National School Lunch Program is a federally assisted meal program operating in nearly 100,000 public and nonprofit private schools (grades PreK-12) and residential childcare institutions. It provides nutritionally balanced, low cost or free lunches to nearly 30 million children each school day. In 1998, Congress expanded the National School Lunch Program to include reimbursement for snacks served to children (through 18 years of age) in after-school educational and enrichment programs.

The Food and Nutrition Service at the U.S. Department of Agriculture administers the program at the federal level. At the state level, the National School Lunch Program is usually administered by SEAs, which operate the program through agreements with school food authorities.

**Carl D. Perkins Vocational and Technical Education Act** (the Perkins Act). The Office of Career, Technical, and Adult Education (OCTAE) at ED administers the Carl D. Perkins Vocational and Technical Education Act. Under the Perkins Act, federal funds are made available to help provide vocational-technical education programs and services to youth and adults. Most of the funds appropriated under the Perkins Act are awarded as grants to eligible agencies (generally LEAs). The **Strengthening Career and Technical Education for the 21st Century (Perkins V) Act** was signed into law in July 2018. This act reauthorized the Carl D. Perkins Career and Technical Education Act of 2006. Congress appropriated $1.29 billion for the Perkins program for FY 2020.

**Who Can Help with Questions?**

When applying for federal funding, the first contact should be the state charter school representative. A list of these state representatives can be found in Chapter 3 of the guidebook. Each of the selected federal program profiles included in Chapter 2 of this guidebook includes the administrative contact information at the federal level to help answer your questions, as well as an overview of the application process.

Other valuable resources are the official state representatives of individual federal programs at the state level. Since many federal programs disburse dollars first to states, the state program representatives can offer the most assistance when applying for specific federal programs. However, since charter schools usually constitute a small minority of the schools eligible for a specific federal program, policies on how charter schools fit into the application process may not always be established. In such cases, the federal program representative will need to work in conjunction with the state’s charter school representative and the school to examine issues.

Many regions of the country with large numbers of charter schools contain charter school resource centers and/or state charter school associations. These organizations can also provide information on how to apply for and receive federal funding within a state. Contact information for these organizations can be found in Chapter 3 of this guide.

---

Chapter 2 | Program Profiles

This chapter presents information on 24 selected federal programs. Funding from these programs can be used for key purposes of charter school development or operation, including serving student populations and providing school programs. A summary of each program, including description, authorizing legislation, and funding process for schools, is contained in the Program Description Matrix below.

Following the table, the Program Description section provides additional detail on each program, including who may apply, the administering agency, appropriations for the three most recent years available, award levels, contact information, and more.\(^\text{20}\)

Program Descriptions

Office of Elementary and Secondary Education

Charter School Programs Grants to State Entities (SE)

Also Known As: Charter Schools, Public Charter Schools Program, CSP SE

Program Office: Charter School Programs (CSP)

Administrating Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.282A

Who May Apply (by category): State Entities

Who May Apply (specifically): State entities with a state statute specifically authorizing the establishment of charter schools may apply. State entities include a state education agency; a state charter school board; a governor of a state; or a charter school support organization. Under Section 4303(e)(1) of the ESSA, no state entity may receive a grant under this program for use in a state in which a state entity is currently using a grant received under this program.

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):

- Fiscal Year 2019: $216,910,577
- Fiscal Year 2020: $214,566,290
- Fiscal Year 2021: $220,842,582

For the most recent information, see https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/charter-school-programs/state-entities/funding-and-legislation/

Awards Information (most recent information available):

Program Details:

Program Regulations: 2015 Notice of Final Priorities, Requirements, Definitions, and Selection Criteria; Charter Schools Programs Grants to State Education Agencies (80 FR 34201); Education Department General Administrative Regulations (EDGAR); Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR 200); Uniform Guidance

Technical Assistance for Grantees
Program Description: The CSP Grants to State Entities (CFDA No. 84.282A) is a competitive grant program that enables state entities to award subgrants to eligible applicants in their state to open and prepare for the operation of new charter schools and to replicate and expand high-quality charter schools. At least 7% of grant funds must be used by the state entity to provide technical assistance to eligible applicants and authorized public chartering agencies in opening and preparing for the operation of new charter schools or replicating or expanding high-quality charter schools, and to work with authorized public chartering agencies to improve authorizing quality, including developing capacity for and conducting fiscal oversight and auditing of charter schools.

National Dissemination Grants

Also Known As: National Dissemination

Program Office: Charter School Programs (CSP)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.282T

Who May Apply (by category): State education agencies (SEAs); state charter school boards; state governors; charter school support organizations; authorized public chartering agencies; and public and private nonprofit organizations that operate, manage, or support charter schools

Who May Apply (specifically): Eligible applicants include SEAs; state charter school boards; state governors; charter school support organizations; authorized public chartering agencies; and public and private nonprofit organizations that operate, manage, or support charter schools. Eligible applicants may apply as a partnership or consortium and, if so applying, must comply with the requirements for group applications set forth in 34 CFR 75.127-129. Public and private nonprofit organizations that operate, manage, or support charter schools must apply in partnership with one or more SEAs, state charter school boards, state governors, charter school support organizations, or authorized public chartering agencies.

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):
Fiscal Year 2018: $6,505,069
For the most recent information, see https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/charter-school-programs/expanding-opportunity-through-quality-charter-schools-program-csp-national-dissemination-grants/funding-and-legislation/

Awards Information (most recent information available):

Program Details:
Legislative Citation: Title IV, Part C of the Elementary and Secondary Education of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Section 4305(a)(3)(B); Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. No. 113-235)

Program Regulations: Education Department General Administrative Regulations (EDGAR); Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR 200); Uniform Guidance Technical Assistance for Grantees

Program Description: The CSP National Dissemination program is authorized to make awards on a competitive basis to support efforts by eligible entities to support the charter school sector and
increase the number of high-quality charter schools available to our nation’s students by disseminating best practices regarding charter schools. This competition invites applications from eligible applicants to disseminate best practices regarding charter schools consistent with the authority in Section 4305(a)(3)(B) of the Elementary and Secondary Education of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESEA). The major purposes of the CSP National Dissemination program are to expand opportunities for all students, particularly traditionally underserved students, to attend charter schools and meet challenging state academic standards; provide financial assistance for the planning, program design, and initial implementation of public charter schools; increase the number of high-quality charter schools available to students across the United States; evaluate the impact of charter schools on student achievement, families, and communities; share best practices between charter schools and other public schools; encourage states to provide facilities support to charter schools; and support efforts to strengthen the charter school authorizing process.

**Education Level (by category): K-12**

Charter School Programs Developer Grants

Also Known As: Developers

Program Office: Charter School Programs (CSP)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA Nos.: 84.282B and 84.282E

Who May Apply (by category): Eligible applicants are developers that have applied to an authorized public chartering authority to operate a charter school and that have provided adequate and timely notice to that authority.

Who May Apply (specifically): For complete eligibility information, see the Notice Inviting Applications (NIA).

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):
- Fiscal Year 2018: $17,885,523
- Fiscal Year 2019: $5,824,563
- Fiscal Year 2020: $5,119,997

State Charter School Facilities Incentive Grants Program

Also Known As: Per-Pupil Facilities Aid Program

Program Office: Charter School Programs (CSP)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.282D

Who May Apply (by category): States

Who May Apply (specifically): SEAs (such as a state’s department of education or comparable state agency) may apply for this grant if the state has a law in place authorizing per-pupil facilities aid for charter schools and provides annual financing, on a per-pupil basis, for charter school facilities.

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $6,000,000 (funding for new awards)
- Fiscal Year 2020: not more than $10,000,000
- Fiscal Year 2021: not more than $10,000,000

Awards Information (most recent information available):

Program Details:

Legislative Citation: Title IV, Part C of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Section 4304(k) (20 U.S.C. section 7221c)

Program Regulations: Education Department General Administrative Regulations (EDGAR); 34 CFR Part 226 State Charter School Facilities Incentive Program

Program Description: This program provides competitive grants to help states establish and enhance or administer “per-pupil facilities aid” for charter schools. The federal funds are used to match programs funded with non-federal dollars that make payments, on a per-pupil basis, to provide charter schools with facilities financing. The program is intended to encourage states to share in the costs associated with charter schools facilities funding and, as a result, pay an increasing share of the cost of the program. Under this grant, the maximum federal share of facilities funds decreases each year (from 90% in the first year to 20% in year five) and phases out entirely after five years.

Credit Enhancement for Charter School Facilities Program

**Also Known As:** Charter Facilities

**Program Office:** Charter School Programs (CSP)

**Administering Office:** Office of Elementary and Secondary Education (OESE)

**CFDA No.:** 84.354A

**Who May Apply (by category):** Public entities (such as state or local government entities), private nonprofit entities, or a consortium of such entities.

**Who May Apply (specifically):** Eligible applicants include public entities (such as state or local government entities), private nonprofit entities, or a consortium of such entities. For more information, see the Notice Inviting Applications (NIA).

**Type of Assistance (by category):** Discretionary/Competitive Grants

**Appropriations (most recent information available):**
- Fiscal Year 2019: $43,721,385
- Fiscal Year 2020: $44,521,385
- Fiscal Year 2021: $42,000,000
For the most recent information, see [https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/charter-school-programs/credit-enhancement-for-charter-school-facilities-program/funding-and-legislation/](https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/charter-school-programs/credit-enhancement-for-charter-school-facilities-program/funding-and-legislation/)

**Awards Information (most recent information available):**

**Program Details:**

*Legislative Citation:* Title IV, Part C of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Section 4304(a)–(j)(20 U.S.C. section 7221c)

*Program Regulations:* Education Department General Administrative Regulations (EDGAR); Credit Enhancement Program Regulations; Guidance for the Credit Enhancement for Charter School Facilities program; Frequently Asked Questions regarding the circumstances under which CSP funds may be used for grants that support preschool education in charter schools, under new authority in the Consolidated Appropriations Act, 2014

**Program Description:**
The purpose of the Credit Enhancement program is to award grants to eligible entities that demonstrate innovative methods of helping charter schools address the cost of acquiring, constructing, and renovating facilities by enhancing the availability of loans and bond financing.
This program provides grants to eligible entities to permit them to enhance the credit of charter schools so that the charter schools can access private-sector and other non-federal capital in order to acquire, construct, and renovate facilities at a reasonable cost.

**Objective:**

An eligible entity receiving a grant must use the funds deposited in the reserve account to assist one or more charter schools to access private-sector capital to accomplish one or more of the following objectives:

1. The acquisition (by purchase, lease, donation, or otherwise) of an interest (including an interest held by a third party for the benefit of a charter school) in improved or unimproved real property that is necessary to commence or continue the operation of a charter school
2. The construction of new facilities, or the renovation, repair, or alteration of existing facilities, necessary to commence or continue the operation of a charter school
3. The predevelopment costs required to assess sites and to commence or continue the operation of a charter school

**Permissible Uses of Reserve Account Funds:**

An eligible entity receiving a grant shall, in accordance with state and local law, directly or indirectly, alone or in collaboration with others, deposit the funds received, other than funds used for administrative costs, in a reserve account established and maintained by the eligible entity. Amounts deposited in such an account shall be used by the eligible entity for one or more of the following purposes:

1. Guaranteeing, insuring, and reinsuring bonds, notes, evidences of debt, loans, and interests therein
2. Guaranteeing and insuring leases of personal and real property
3. Facilitating financing by identifying potential lending sources, encouraging private lending, and other similar activities that directly promote lending to, or for the benefit of, charter schools
4. Facilitating the issuance of bonds by charter schools, or by other public entities for the benefit of charter schools, by providing technical, administrative, and other appropriate assistance (including the recruitment of bond counsel, underwriters, and potential investors and the consolidation of multiple charter school projects within a single bond issue)

Funds received and deposited in the reserve account shall be invested in obligations issued or guaranteed by the United States or a state or in other similarly low-risk securities. Any earnings on funds received shall be deposited in the reserve account and used in accordance with this program.

**Education Level (by category):** K-12

Alaska Native Education

*Also Known As:* Alaska Native Education Program

*Program Office:* Office of Rural, Insular, and Native Achievement Programs (RINAP)

*Administering Office:* Office of Elementary and Secondary Education (OESE)

*CFDA No.:* 84.356A

*Who May Apply (by category):* Nonprofit Organizations, Other Educational Organizations and/or Agencies

*Who May Apply (specifically):* A) Alaska Native organizations, education entities with experience in developing or operating Alaska Native programs or programs of instruction conducted in Alaska Native languages; B) Cultural and community-based organizations with experience in developing or operating programs to benefit Alaska Natives, and consortia of organizations may apply; C) A state education agency (SEA) or local education agency (LEA) may apply as part of a consortium involving an Alaska Native organization. The consortium may include other eligible applicants.

*Type of Assistance (by category):* Discretionary/Competitive Grants

*Appropriations (most recent information available):*
  - Fiscal Year 2019: $35,453,000
  - Fiscal Year 2020: $35,953,000
  - Fiscal Year 2021: $36,453,000 (Regular ANE Appropriation); $85,000,000 (American Rescue Plan)
  For the most recent information, see https://oese.ed.gov/offices/office-of-formula-grants/rural-insular-native-achievement-programs/alaska-native-education-equity/funding-status/

*Awards Information (most recent information available):*

*Program Details:
  *Legislative Citation:* Title VI, Part C of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Sections 6301-6306 (20 U.S.C. sections 7541-7546)
  *Program Regulations:* Education Department General Administrative Regulations (EDGAR)

*Program Description:* The overall purpose of the program is to meet the unique education needs of Alaska Natives and to support supplemental educational programs to benefit Alaska Natives.

*Types of Projects:* Allowable activities include, but are not limited to, the development of curricula and education programs that address the education needs of Alaska Native students and the development and operation of student enrichment programs in science and mathematics. Eligible activities also include professional development for educators, activities carried out through Even
Start (CFDA #84.213) programs and Head Start programs, family literacy services, and dropout prevention programs.

Improving Basic Programs Operated by Local Education Agencies (Title I, Part A)

Also Known As: ESEA Title I, Part A; Improving the Academic Achievement of the Disadvantaged; Improving Basic Programs Operated by Local Education Agencies (LEAs)

Program Office: Office of School Support and Accountability (SSA)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.010

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): ED allocates appropriated funds to LEAs through participating SEAs. Prior to calculating the LEA allocations, the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), generally requires ED to set aside 0.7% for the Office of the Secretary of the Interior and 0.4% for the Outlying Areas (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). The secretary of the interior makes subgrants to schools operated by the Bureau of Indian Education, while the Outlying Areas receive formula grants. In addition, appropriation acts generally make a certain amount of Basic Grant funds available to ED to obtain annually updated LEA poverty data from the U.S. Census Bureau.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $15,859,802,000
- Fiscal Year 2020: $16,309,802,000
- Fiscal Year 2021: $16,536,802,000
For the most recent information, see: https://oese.ed.gov/offices/office-of-formula-grants/school-support-and-accountability/title-i-part-a-program/funding-status/

Awards Information (most recent information available):
- Number of New Awards (2019): 52
- Average Award: $301,546,138
- Range of Awards: $36,919,531–$1,964,563,638

Program Details:
Legislative Citation: Title I, Part A of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Sections 1111–1127 (20 U.S.C. sections 6301-6339, 6571-6578)

Program Regulations: 34 CFR 200
**Program Description:** Title I, Part A (Title I) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), provides financial assistance to LEAs and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet challenging state academic standards.

Federal funds are currently allocated through four statutory formulas that are based primarily on census poverty estimates and the cost of education in each state.

1. Basic Grants provide funds to LEAs in which the number of children counted in the formula is at least 10 and exceeds 2% of an LEA’s school-age population.
2. Concentration Grants flow to LEAs where the number of children counted in the formula exceeds 6,500 or 15% of the total school-age population.
3. Targeted Grants are based on the same data used for Basic and Concentration Grants, except that the data are weighted so that LEAs with higher numbers or higher percentages of children from low-income families receive more funds. Targeted Grants flow to LEAs where the number of school children counted in the formula (without application of the formula weights) is at least 10 and at least 5% of the LEA’s school-age population.
4. Education Finance Incentive Grants (EFIG) distribute funds to states based on factors that measure
   - a state’s effort to provide financial support for education compared to its relative wealth as measured by its per-capita income; and
   - the degree to which education expenditures among LEAs within the state are equalized.

Once a state’s EFIG allocation is determined, funds are allocated (using a weighted count formula that is similar to Targeted Grants) to LEAs in which the number of children from low-income families is at least 10 and at least 5% of the LEA’s school-age population. LEAs target the Title I funds they receive for schools with the highest percentages of children from low-income families. Unless a participating school is operating a schoolwide program, the school must focus Title I services on children who are failing or most at risk of failing to meet state academic standards. Schools in which children from low-income families make up at least 40% of enrollment are eligible to use Title I funds for schoolwide programs that serve all children in the school. LEAs also must use Title I funds to provide academic enrichment services to eligible children enrolled in private schools.

**Types of Projects:**
ED’s most recent data on participation in the program are from school year (SY) 2016-2017. In SY 2016-2017, Title I funds were used by 59,743 public schools across the country to provide additional academic support and learning opportunities to help low-achieving children master challenging curricula and meet state standards in core academic subjects. For example, funds support extra instruction in reading and mathematics, as well as special preschool, after-school, and summer programs to extend and reinforce the regular school curriculum. Title I served approximately 24.6 million children in that year.

**Education Level (by category):** Pre-K, K-12

Education for Homeless Children and Youths – Grants for State and Local Activities

Also Known As: The McKinney-Vento Education for Homeless Children and Youth Program

Program Office: Office of School Support and Accountability (SSA)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.196A

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): While only SEAs may apply and directly receive funds from the Department of Education, SEAs are, in turn, required to make formula subgrants to local educational agencies (LEAs). To receive funds under ESEA formula grant programs, States are required, once per Congressional authorization of the statute, to submit program plans. Each program plan must address program requirements specified in the statute. Section 8303 of the ESEA, however, permits the Department to simplify application requirements and reduce the burden on States by establishing procedures for States to submit a single Consolidated State Plan that addresses multiple programs. Each State submitted a Consolidated State Plan in 2017 in order to receive funds under nine formula Grant programs, including EHCY. Copies of all current State plans, as well as information about the State plan process, may be found at https://oese.ed.gov/offices/office-of-formula-grants/school-support-and-accountability/essa-consolidated-state-plans/.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):

- Fiscal Year 2019: $93,500,000
- Fiscal Year 2020: $101,500,000
- Fiscal Year 2021: $106,500,000

See here for ED’s Funding Status and Awards table by program or state.

Awards Information (most recent information available):

- Fiscal Year 2019: $15,859,802,000
- Fiscal Year 2020: $16,309,802,000
- Fiscal Year 2021: $19,363,430,000

For the most recent information, see: Funding Status & Awards - Office of Elementary and Secondary Education

Program Details

Legislative Citation: The McKinney-Vento Homeless Assistance Act, Title VII, Subtitle B, as amended. The Every Student Succeeds Act amendments to the Education for Homeless Children and Youths program that took effect on October 1, 2016 can be found here. Additional information and resources can be found at ED’s National Center for Homeless Education (NCHE) Technical Assistance Center website: https://nche.ed.gov/.
Program Regulations: Uniform Guidance (2 CFR 200); Education Department General Administrative Regulations (EDGAR)

Program Description: Formula grants are made to the 50 states, the District of Columbia, and Puerto Rico based on each state’s share of Title I, Part A funds. The Outlying Areas and the Bureau of Indian Affairs also receive funds. Among other things, the program supports an office for coordination of the education of homeless children and youths in each state; this office gathers comprehensive information about homeless children and youths and the impediments they must overcome to regularly attend school. These grants also help SEAs ensure that homeless children, including preschoolers and youths, have equal access to free and appropriate public education (FAPE). States must review and revise laws and practices that impede such access. States are required to have an approved plan for addressing problems associated with the enrollment, attendance, and success of homeless children in school. States must make competitive subgrants to LEAs to facilitate the enrollment, attendance, and success of homeless children in schools. This includes addressing problems due to transportation needs, immunization and residency requirements, lack of birth certificates, and guardianship issues.

Types of Projects: With subgrant funds, LEAs offer such activities as coordination and collaboration with other local agencies to provide comprehensive services to homeless children and youths and their families. LEAs also offer expedited evaluations of the needs of homeless children to help them enroll in school, attend regularly, and achieve success.

Migrant Education Program – Basic State Formula Grants

Also Known As: Education of Migratory Children, Title 1, Part C

Program Office: Office of Migrant Education

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.011

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): SEAs apply to ED for funds using either a Title I Migrant-specific application or a consolidated application through which states submit a single application for funds for a number of federal education formula grant programs. (Consolidated applications/plans are authorized under Title IX of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), to promote coordination among programs and reduce paperwork.) These applications are submitted at the beginning of each reauthorization cycle and remain in effect until the next reauthorization. However, states are expected to amend their applications, as needed, to reflect any changes in how the program is implemented.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $374,751,000
- Fiscal Year 2020: $374,751,000
- Fiscal Year 2021: $375,626,000

For the most recent information, see https://oese.ed.gov/offices/office-of-migrant-education/migrant-education-program/funding-status-migrant-education-program/

Awards Information (most recent information available):
No information available

Program Details:
Legislative Citation: Title I, Part C of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA); Family Education Rights and Privacy Act (FERPA); ED’s General Education Provisions Act (GEPA), Section 427

Program Regulations: Code of Federal Regulations (CFR) (Part 200); CFR (Part 299); Federal Register Notice on funding formula; Federal Register Notice to clarify and improve Migrant Education Program (MEP) eligibility and fiscal accountability requirements; National certificate of eligibility (COE) form and instructions to be used by all states to document the basis of their determinations of the eligibility of a migratory child; Regulations on Standards and Assessments – The final regulations on standards and assessments require that assessment results be disaggregated within each state, LEA, and school by migrant status per 34 CFR 200.2(b)(10). They also require that a state include migratory students and other mobile students in its academic assessment system, even if those students are not included for accountability purposes per 34 CFR 200.6(c); Other Regulations
– All of Title 34 of the Code of Federal Regulations, the Education Department General Administrative Regulations (EDGAR), and other pertinent regulations can be found on ED’s legislation, regulations, and guidance pages.

Program Description: Funds support high-quality education programs for migratory children and help ensure that migratory children who move among the states are not penalized in any manner by disparities among states in curriculum, graduation requirements, or state academic content and student academic achievement standards. Funds also ensure that migratory children not only are provided with appropriate education services (including supportive services) that address their special needs, but also that such children receive full and appropriate opportunities to meet the same challenging state academic content and student academic achievement standards that all children are expected to meet. Federal funds are allocated by formula to state education agencies based on each state’s per-pupil expenditure for education and counts of eligible migratory children age 3 through 21 residing within the state.

Types of Projects: State MEP grantees and local/regional MEP subgrantees carry out a range of activities and services to support the needs of migratory children, including identifying and recruiting migratory children, providing instructional and support services that help bolster and sustain the educational progress of migratory children, and collaborating with other organizations and programs that serve migratory children (e.g., Migrant and Seasonal Head Start, the College Assistance Migrant Program, or the High School Equivalency Program). MEP grantees and subgrantees vary in how they carry out these tasks. For example, MEP grantees and subgrantees may identify and recruit migratory children directly or assign this task to others. They also have flexibility to provide a range of services, including direct academic instruction, online courses, graduation-planning assistance, health and dental care, clothing, transportation, and other supports that help migratory children progress and succeed in school.

Impact Aid Section 7007(b), Discretionary Construction Grant Program

Also Known As: Construction Grants (Section 7007)

Program Office: Impact Aid

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.041C

Who May Apply (by category): Local Education Agencies (LEAs)

Who May Apply (specifically): An LEA is eligible to receive an emergency grant under Section 7007(b) of the Act if it has a school facility emergency that the secretary has determined poses a health or safety hazard to students and school personnel.

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $17,406,000
- Fiscal Year 2020: $17,406,000
- Fiscal Year 2021: $17,406,000

For information on the most recent funding status available, see https://oese.ed.gov/offices/office-of-formula-grants/impact-aid-program/impact-aid-section-7007-b-discretionary-construction-grant-program/funding-status/

Awards Information (most recent information available):

Program Details:
Legislative Citation: Title VII of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Section 7007(b)

Program Regulations: Final Rule (September 20, 2016); Impact Aid Program Regulations

Program Description:
Impact Aid discretionary construction grants fund emergency repairs to and modernization of school facilities for certain eligible local education agencies (LEAs) that receive Impact Aid.

- Emergency repair grants must be used to repair, renovate, or alter a public elementary or secondary school facility to ensure the health, safety, and well-being of students and school personnel.
- Modernization grants may be used to extend a public elementary or secondary school facility to ease overcrowding and provide facilities that support a contemporary educational program.

The law specifies that applications for emergency grants receive first and second priority in the competition, while applications for modernization grants are treated as third and fourth priorities.
The Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), authorizes Impact Aid discretionary construction grants under Section 7003(b).

Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk

Also Known As: Neglected and Delinquent State Agency and Local Education Agency Program

Program Office: Office of School Support and Accountability (SSA)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.013A

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): State agencies responsible for providing free public education for children in institutions for those who are neglected or delinquent, responsible for children who are enrolled in education programs in adult correctional facilities, and responsible for children in community day programs for those who are neglected or delinquent may apply to their state education agencies (SEAs). In addition, local education agencies (LEAs) with high numbers or percentages of youth in local correctional facilities may receive subgrants.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $47,614,000
- Fiscal Year 2020: $47,614,000
- Fiscal Year 2021: $48,239,000

For the most recent information, see https://oese.ed.gov/offices/office-of-formula-grants/school-support-and-accountability/prevention-intervention-programs-children-youths-neglected-delinquent-risk/awards/

Awards Information (most recent information available):
For State Funding History Tables: FY 1980—FY 2019, see https://www2.ed.gov/about/overview/budget/history/index.html

Program Details:
Legislative Citation: Title I, Part D of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA) (20 U.S.C. sections 6421-6472)

Program Regulations: Title 34 CFR, Chapter II, Part 200—Title I—Helping Disadvantaged Students Meet High Standards, Subpart D—Prevention and Intervention Programs for Children and Youth Who are Neglected, Delinquent, or At-Risk of Dropping Out (34 CFR 200.90-91); Uniform Guidance (2 CFR 200); Education Department General Administrative Regulations (EDGAR)

Program Description: The Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk, as authorized by Title I, Part D of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), consists of two subparts. The Subpart 1 state agency program was first authorized by Public Law 89-
750, the Elementary and Secondary Amendments of 1966. This program allocates funds to state education agencies (SEAs) for supplementary education services. These services help provide education continuity for children and youth in state-run institutions for neglected and delinquent juveniles, community day programs, and adult correctional institutions so that these children and youth can make successful transitions to school or employment after they are released.

The Subpart 2 local education agency program was created in its present form by the Improving America’s Schools Act of 1994. This program requires each SEA to retain from its Title I, Part A (CFDA 84.010A) allocation, funds generated by the number of children and youth ages 5-17 living in local facilities for delinquent children, including adult correctional facilities. Funds may be used for LEAs with high proportions of youth in local correctional facilities and drop-out prevention programs for at-risk youth.

The Title I, Part D program statute was most recently amended in 2015 by the Every Student Succeeds Act. The main goals are as follows:

- Improve educational services in local, tribal, and state institutions for children and youth who are neglected or delinquent so that they can meet the same challenging state academic standards that all children in the state are expected to meet
- Provide these children and youth with services to successfully transition to further schooling or employment
- Prevent youth who are at risk of dropping out of school from doing so, and provide youth who drop out and children and youth returning from correctional facilities with a support system to ensure their continued education and the involvement of their families and communities

Small, Rural School Achievement Program

Also Known As: Small Rural School Grants (SRSA) and Rural Education Achievement Program (REAP)

Program Office: Office of Rural, Insular, & Native Achievement Programs (RINAP)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.358A

Who May Apply (by category): Local Education Agencies (LEAs)

Who May Apply (specifically): An LEA is eligible for a Small, Rural School Achievement (SRSA) award if (1) the total number of students in average daily attendance at all of the schools served by the LEA is fewer than 600 or (2) each county in which a school served by the LEA is located has a total population density of fewer than 10 people per square mile; and (3) all of the schools served by the LEA are designated with a school locale code of 41, 42, or 43, as determined by the secretary of education, or (4) the LEA is located in an area determined to be “rural” by a governmental agency of the state.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $90,420,000
- Fiscal Year 2020: $92,920,000
- Fiscal Year 2021: $93,920,000

For the most recent information, see https://oese.ed.gov/offices/office-of-formula-grants/rural-insular-native-achievement-programs/rural-education-achievement-program/small-rural-school-achievement-program/funding-status/

Awards Information (most recent information available):
SRSA grant funds are allocated to eligible LEAs based on the following formula:
- The number of students in average daily attendance, minus 50
- Multiply this number by $100
- Add $20,000
- If the total is above $60,000, this amount is capped at $60,000
- From the amount above, subtract the funds for each school district from appropriations of the preceding federal fiscal year under
  1. Title II-A
  2. Title IV-A

Please note: (1) this is an estimated calculation; the actual SRSA award amount may be higher or lower than this calculation, depending on the amount Congress appropriates for the program, as well as the number of LEAs nationwide that are eligible to receive SRSA grant funding in a given fiscal year; (2) not every eligible LEA will receive an SRSA grant, as there are instances where the allocation formula generates an award of $0 (e.g., an LEA that received a particularly large amount of Title II-A or Title IV-A funds, such as $60,000 or more, would receive $0 under the formula); and (3) the LEA
must apply in accordance with the application submission procedures in order to receive SRSA grant funds.

https://oese.ed.gov/offices/office-of-formula-grants/rural-insular-native-achievement-programs/rural-education-achievement-program/small-rural-school-achievement-program/awards/

Program Details:

Legislative Citation: Title V, Part B of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), Subpart 1

Program Regulations: Education Department General Administrative Regulations (EDGAR)

Program Description: The purpose of the SRSA program is to provide rural LEAs with financial assistance to fund initiatives aimed at improving student academic achievement.

Local education agencies (LEAs) are entitled to funds if they meet basic eligibility and application requirements. Awards are issued annually, and award amounts are determined using a formula.

Types of Projects: Grantees may use SRSA funds to carry out activities authorized under any of the following federal programs:

- Title I-A (Improving Basic Programs Operated by Local Education Agencies)
  Example: A school district develops an entrepreneurial education program to supplement its civics curriculum.

- Title II-A (Supporting Effective Instruction)
  Example: A school district pays the stipend for a prospective teacher to work alongside an effective teacher, who is the teacher of record, for a full academic year.

- Title III (Language Instruction for English Learners and Immigrant Students)
  Example: A school district offers an after-school enrichment program for English learners.

- Title IV-A (Student Support and Academic Enrichment)
  Example: A school district purchases a bully prevention program for all schools.

- Title IV-B (21st-Century Community Learning Centers)
  Example: A school district purchases instruments to supplement schools’ band and orchestra programs.

21st-Century Community Learning Centers

Also Known As: Nita M. Lowey 21st Century Community Learning Centers

Program Office: Office of School Support and Accountability (SSA)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.287

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): Awards are made to SEAs, which in turn manage statewide competitions and award grants to eligible entities. For this program, eligible entity means local education agencies (LEAs); community-based organizations; Indian tribe or tribal organization (as such terms are defined in Section 4 of the Indian Self-Determination and Education Act [25 U.S.C. section 450b]); another public or private entity; or a consortium of two or more such agencies, organizations, or entities.

Consistent with this definition of eligible entities, faith-based organizations are eligible to participate in the 21st-Century Community Learning Centers program. Regulations are available governing the participation of faith-based organizations in federal programs for which they are eligible.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):

- Fiscal Year 2019: $1,221,673,000
- Fiscal Year 2020: $1,249,673,000
- Fiscal Year 2021: $1,259,673,000

For the most recent information, see https://oese.ed.gov/offices/office-of-formula-grants/school-support-and-accountability/21st-century-community-learning-centers/funding-status-21st-century-community-learning-centers/

Awards Information (most recent information available):

- Number of New Awards: 52
- Average Award: $24,224,480.77
- Range of Awards: $6,172,398–$148,412,688

Program Details:

Legislative Citation: Title IV, Part B of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA) (20 U.S.C. sections 7171-7176)

Program Regulations: Final regulations to implement executive branch policy that, within the framework of constitutional church-state guidelines, religiously affiliated (or “faith-based”) organizations should be able to compete on an equal footing with other organizations for funding by the U.S. Department of Education are available; view the full text of the Federal Register notice announcing these final regulations (June 4, 2004); view the full text of the regulations amended by
this Federal Register notice, which apply to all entities, including faith-based organizations, that receive grants from the Department of Education in 34 C.F.R. parts 74-99; view the final regulations compiled by the Center for Faith Based and Neighborhood Partnerships.

Program Description: This program supports the creation of community learning centers that provide academic enrichment opportunities for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that can complement their regular academic programs; and offers literacy and other educational services to the families of participating children.

**Assistance for Arts Education Program**

**Also Known As:** Arts Models

**Program Office:** Office of Well-Rounded Education Programs

**Administering Office:** Office of Elementary and Secondary Education (OESE)

**CFDA No.:** 84.351A

**Who May Apply (by category):** Local Education Agencies (LEAs), Nonprofit Organizations

**Who May Apply (specifically):** Eligible applicants include the following:

1. An LEA in which 20% or more of the students served by the local education agency are from families with an income below the poverty line
2. A consortium of such LEAs
3. A state education agency (SEA)
4. An institution of higher education (IHE)
5. A museum or cultural institution
6. The Bureau of Indian Education
7. An eligible national nonprofit organization
8. Another private agency, institution, or organization

**Type of Assistance (by category):** Discretionary/Competitive Grants

**Appropriations (most recent information available):**
- Fiscal Year 2021: $30,500,000

**Awards Information (most recent information available):**
- Number of New Awards: 27
- Average Award: $3,937,452
- Range of Awards: $9,176,422 – $1,250,056

**Program Details:**

*Legislative Citation:* Title IV, Part F, Subpart 4 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA)

*Program Regulations:* Education Department General Administrative Regulations (EDGAR)

**Program Description:** The Assistance for Arts Education (AAE) program promotes arts education for students, including disadvantaged students and students who are children with disabilities, through such activities as the following:

1. Professional development for arts educators, teachers, and principals
2. Development and dissemination of accessible instructional materials and arts-based educational programming, including online resources, in multiple arts disciplines
3. Community and national outreach activities that strengthen and expand partnerships among schools, local education agencies (LEAs), communities, or centers for the arts, including national centers for the arts.

Teacher and School Leader Incentive Fund

Also Known As: Teacher Incentive Fund (TIF) or Teacher and School Leader (TSL) Incentive Program

Program Office: Office of Effective Educator Development Programs (EEDP)

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA Nos.: 84.374A and 84.374B

Who May Apply (by category): Local Education Agencies (LEAs), Nonprofit Organizations, State Education Agencies (SEAs)

Who May Apply (specifically): Under Section 2211(b)(1) of the Elementary and Secondary School Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA), only the following types of applicants are eligible for a Teacher and School Leader Incentive Fund (TSL) award: (a) a local education agency (LEA), including a charter school that is an LEA, or a consortium of LEAs; (b) a state education agency (SEA) or other state agency designated by the chief executive of a state to participate; (c) the Department of the Interior’s Bureau of Indian Education; or (d) a partnership consisting of (i) one or more agencies described in (a), (b), or (c); and (ii) at least one nonprofit organization as defined in 2 CFR 200.70 or at least one for-profit entity. Note: Per ESEA Section 2212(b)(3), an LEA may receive a TSL grant (whether individually or as part of a consortium or partnership) only twice.

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $200,000,000
- Fiscal Year 2020: $200,000,000
- Fiscal Year 2021: $200,000,000

For the most recent information, see https://oese.ed.gov/offices/office-of-discretionary-grants-support-services/effective-educator-development-programs/teacher-and-school-leader-incentive-program/funding-and-legislation/

Awards Information (most recent information available):

Program Details:
Legislative Citation: The Teacher and School Leader Incentive Fund (TSL) program was established by Sections 2211-2213 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended on December 10, 2015, by the Every Student Succeeds Act (ESSA). The TSL program replaces the Teacher Incentive Fund (TIF) program previously authorized in Pub. L. No. 109-149 — the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2006, Title V, Part D.
Program Description: This program supports entities in implementing, improving, or expanding their overall human capital management system (HCMS), which by definition must include a performance-based compensation system (PBCS). The TSL programs serve educators primarily in high-need schools who raise student academic achievement and close the achievement gap between high- and low-performing students, although the program may also fund services for educators serving in high-need subject areas (though not necessarily in high-need schools), as determined by the LEA or the state.

Types of Projects: The program funds national, regional, statewide, and local projects.

Indian Education Formula Grants

Also Known As: Education Formula Grants to Local Education Agencies

Program Office: Office of Indian Education

Administering Office: Office of Elementary and Secondary Education (OESE)

CFDA No.: 84.060A

Who May Apply (by category): Local education agencies (LEAs) and certain schools funded by the Bureau of Indian Affairs, and Indian tribes under certain conditions

Who May Apply (specifically): LEAs that enroll a threshold number of eligible Indian children and certain schools funded by the U.S. Department of the Interior, Bureau of Indian Affairs may apply. Indian tribes, Indian organizations, and Indian community-based organizations also may apply under certain conditions.

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $105,381,000
- Fiscal Year 2020: $105,381,000
- Fiscal Year 2021: $105,381,000
For the most recent information, see https://oese.ed.gov/offices/office-of-indian-education/indian-education-formula-grants/funding-status/

Awards Information (most recent information available):
- Number of New Awards: 1,258
- Average Award: $81,647
- Range of Awards: $4,000–$2,730,488

Program Details:
Legislative Citation: Title VI, Part A of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA) (20 U.S.C. sections 7421-7429, 7491-7492)

Program Regulations: Education Department General Administrative Regulations (EDGAR); Uniform Administrative and Cost Principles, 2 CFR part 200; 34 CFR part 75 - Direct Grant Programs

Program Description: This program is designed to address the unique cultural, language, and educationally related academic needs of American Indian and Alaska Native students, including preschool children, and to ensure that all students meet challenging state academic standards. The program is ED’s principal vehicle for addressing the needs of Indian children.

Types of Projects: Grant funds supplement the regular school program by meeting the culturally related academic needs of Indian children. Projects help Indian children sharpen their academic skills,
assist students in becoming proficient in the core content areas, and provide students an opportunity to participate in enrichment programs that would otherwise be unavailable. Funds support such activities as culturally responsive after-school programs, Native language classes, early childhood education, tutoring, and dropout prevention.

Office of Safe and Supportive Schools

School Climate Transformation Grant – Local Education Agency Grants

Also Known As: School Climate Transformation Grant

Administering Office: Office of Safe and Supportive Schools

CFDA No.: 84.184G

Who May Apply (by category): Local Education Agencies (LEAs) or a consortia of LEAs

Who May Apply (specifically): Eligible applicants include local education agencies (LEAs) or a consortia of LEAs, as defined by Section 9101(41) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA). Eligibility under this discretionary grant competition is limited to LEAs that have never received a grant under the School Climate Transformation Grant – Local Education Agency (SCTG-LEA) program.

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available): No information available

Awards Information (most recent information available):
- Estimated Available Funds: $40,000,000
- Estimated Range of Awards: $100,000 to $750,000 per year for up to five years
- Estimated Average Size of Awards: $500,000
- Maximum Award: $750,000
- Estimated Number of Awards: 80
  

Program Details:

Legislative Citation: Title IV, Part A, Subpart 2, Section 4121 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA)

Program Description: The School Climate Transformation Grant—Local Education Agency (SCTG-LEA) program provides competitive grants to local education agencies (LEAs) to develop, enhance, or expand systems of support for, and technical assistance to, schools implementing a multi-tiered system of support for improving school climate.

Types of Projects:
Projects should (1) build capacity for implementing a sustained, schoolwide, multi-tiered, behavioral framework; (2) enhance capacity by providing training and technical assistance to schools; and (3) include an assurance that the applicant will work with a technical assistance provider, such as the PBIS Technical Assistance Center funded by ED, to ensure that technical assistance related to implementing program activities is provided.

Office of Special Education Programs

Grants to States for Education of Children with Disabilities

Also Known As: Grants to States for Education of Children with Disabilities, Part B, Section 611

Administering Office: Office of Special Education Programs and Rehabilitative Services (OSERS)

CFDA No.: 84.027

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): State Education Agencies (SEAs)

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available):
- Fiscal Year 2019; $12,364,392,000
- Fiscal Year 2020; $12,764,392,000
- Fiscal Year 2021; $12,937,457,000

Awards Information (most recent information available):
Find up-to-date information here: https://www2.ed.gov/fund/data/award/idea/index.html

Program Details:

Legislative Citation: The Individuals with Disabilities Education Act, as amended, Part B, Section 611; 20 U.S.C. section 1411-1419

Program Regulations: 34 CFR 300

Program Description: The Grants to States program provides formula grants to assist the 50 states, the District of Columbia, Puerto Rico, the Department of the Interior, Outlying Areas, and the Freely Associated States in meeting the excess costs of providing special education and related services to children with disabilities. In order to be eligible for funding, states must serve all children with disabilities between the ages of 3 through 21, except that they are not required to serve children age 3 through 5 or 18 through 21 years if services are inconsistent with state law or practice or the order of any court. A state that does not provide a free, appropriate public education (FAPE) to children with disabilities age 3 through 5 cannot receive base payment funds attributable to this age group or any funds under the Preschool Grants program.

Funds are allocated among states in accordance with a variety of factors, as outlined in the funding formula under Section 611(d) of the Individuals with Disabilities Education Act (IDEA). First, each state is allocated an amount equal to the amount that it received for fiscal year 1999. If the total program appropriation increases over the prior year, 85% of the remaining funds are allocated based on the number of children in the general population in the age range for which the states guarantee FAPE to children with disabilities. Fifteen percent of the remaining funds are allocated based on the
number of children living in poverty that are in the age range for which the states guarantee FAPE to children with disabilities.

Most of the federal funds provided to states must be passed on to LEAs. However, a portion of the funds may be used for state-level activities. Any funds not set aside by the state must be passed through to LEAs. These sub-state allocations are made in a fashion similar to that used to allocate funds among states when the amount available for allocation to states increases.

The IDEA also requires each state to maintain its level of state financial support for special education and related services from one year to the next. The IDEA also contains a local “maintenance of effort” requirement. Under this requirement, each LEA must maintain its total expenditures, including state and local contributions, on special education from one year to the next.

LEAs typically may use up to 15% of their allocation, less any amount used to reduce that LEA’s maintenance of effort level, for early intervening services. Early intervening services generally address the needs of students who require additional academic and behavioral supports to succeed, but who are not identified as needing special education.

The IDEA requires awards to the Freely Associated States of the Pacific Basin (the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands) to be the same amounts that they received from the fiscal year 2003 appropriation. IDEA requires that from the funds appropriated for Grants to States, 1.226% shall be set aside for the Department of the Interior. IDEA also authorizes ED to set aside a portion of the Grants to States appropriation to provide technical assistance to improve the capacity of states to meet data collection requirements necessary for the implementation of the program.

This is a forward-funded program that includes advance appropriations. A portion of the funds becomes available for obligation on July 1 of the fiscal year in which they are appropriated and remains available for federal obligation for 15 months.

**Types of Projects:**

Funds under this program are combined with state and local funds to provide FAPE to children with disabilities. Permitted expenditures include the salaries of special education teachers and costs associated with related services personnel, such as speech therapists and psychologists. States may use funds reserved for other state-level activities for a variety of specified activities, including

- support and direct services,
- technical assistance and personnel preparation,
- assisting LEAs in providing positive behavioral interventions and supports, and
- improving the use of technology in the classroom.

Some portion of funds reserved for other state-level activities must be used for monitoring, enforcement, and complaint investigation, and to establish and implement the mediation process required by Sec. 615(e) of the IDEA, including providing for the cost of mediators and support personnel.
Each state has the option to reserve a portion of the funds the state reserves for other state-level activities for a fund to assist LEAs in addressing the needs of high-cost children with disabilities. If the state opts to reserve for this fund, it may reserve a larger portion of its award for other state-level activities and must reserve at least 10% of the amount set aside for other state-level activities for the fund.

Special Education – State Personnel Development Grants Program

Also Known As: Special Education-National Activities-State Improvement, State Improvement Grant Program

Administering Office: Office of Special Education Programs and Rehabilitative Services (OSERS)

CFDA No.: 84.323A

Who May Apply (by category): State Education Agencies

Who May Apply (specifically): Eligible applicants include a state education agency (SEA) of one of the 50 states, the District of Columbia, or the Commonwealth of Puerto Rico or an Outlying Area (the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands).

Type of Assistance (by category): Discretionary/Competitive Grants

Appropriations (most recent information available):
- Fiscal Year 2019: $38,630,000
- Fiscal Year 2020: $38,630,000
- Fiscal Year 2021: $38,630,000

Awards Information (most recent information available):
Find up-to-date information here: https://www2.ed.gov/fund/data/award/idea/index.html

Program Details:
Legislative Citation: 20 U.S.C. sections 1450-1482 of the IDEA

Program Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 97, 98, and 99; the Education Department suspension and debarment regulations in 2 CFR part 3485; the notice of final priorities and definitions for this program as published in the Federal Register. The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Program Description: The State Personnel Development Grants (SPDG) program focuses on professional development needs. Each state must spend at least 90% of its funds on professional development activities, including the recruitment and retention of qualified special education teachers. No more than 10% of the state’s funds can be spent on state activities, such as reforming special education and regular education teacher certification (including recertification) or licensing requirements and carrying out programs that establish, expand, or improve alternative routes for state certification of special education teachers.

Awards are based on state personnel development plans that identify and address state and local needs for the preparation and professional development of personnel who serve infants, toddlers, preschoolers, or children with disabilities, as well as individuals who provide direct supplementary aids and services to children with disabilities. Plans must be designed to enable the state to meet the
personnel requirements in Parts B and C (Sections 612[a][14] and 635[a][8]-[9]) of the Individuals with Disabilities Education Act (IDEA). These plans must also be integrated and aligned, to the maximum extent possible, with state plans and activities under the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), the Rehabilitation Act of 1973, and the Higher Education Act of 1965.

Vocational Education – Basic Grants to States

**Also Known As:** Perkins Title I Grants or Perkins Formula Grants

**Program Office:** Office of Grants and Programs for Career and Technical Education/Community Colleges

**Administering Office:** Office of Career, Technical, and Adult Education (OCTAE)

**CFDA No.:** 84.048

**Who May Apply (by category):** State-designated agencies

**Who May Apply (specifically):** Awards are made to state eligible agencies for vocational education, which in turn award at least 85% of the funds based on statutory formulas to eligible recipients.

**Type of Assistance (by category):** Formula Grants

**Appropriations (most recent information available):**
- Fiscal Year 2019: $1,262,598,000
- Fiscal Year 2020: $1,282,598,000
- Fiscal Year 2021: $1,334,848,000

**Awards Information (most recent information available):**
- Number of New Awards Anticipated: 57
- Range of Awards: $153,764–$119,242,094
- Average New Award: $20,855,538

**Program Details:**

**Legislative Citation:** The Carl D. Perkins Vocational and Technical Education Act Amendments of 1998 (Perkins Act), Title I (20 U.S.C. section 2321, et seq., Pub. L. No. 105–332)

**Program Regulations:** Education Department General Administrative Regulations (EDGAR)

**Program Description:** Federal funds are made available to develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education (CTE) programs. In accordance with the statute, states must allocate at least 85% of the funds to eligible recipients, which include local education agencies (LEAs), two- and four-year colleges and universities that offer sub-baccalaureate CTE programs, area CTE centers, and postsecondary education institutions controlled by the Department of the Interior’s Bureau of Indian Education (BIE).
Types of Projects: This program provides states with support for state leadership activities, administration of the state plan for vocational and technical education, and subgrants to eligible recipients to improve vocational and technical education programs. To be eligible for a subgrant, an eligible recipient must operate a vocational and technical education program that does the following:

- Strengthens the academic, vocational, and technical skills of students participating in vocational and technical education programs, achieved by integrating core academic subjects into vocational and technical education programs through a coherent sequence of courses
- Provides students with strong experience in and understanding of all aspects of an industry
- Develops, improves, or expands the use of technology in vocational and technical education
- Provides professional development programs to teachers, counselors, and administrators
- Develops and implements evaluations of the vocational and technical education programs carried out with funds under the Perkins Act, including an assessment of how the needs of special populations are being met
- Initiates, improves, expands, and modernizes quality vocational and technical education programs
- Provides services and activities that are of sufficient size, scope, and quality to be effective
- Links secondary vocational and technical education, including Tech-Prep programs, with postsecondary vocational and technical education programs

Education Level (by category): Secondary, Postsecondary, Vocational, Adult

U.S. Department of Agriculture

National School Lunch and School Breakfast Programs

Program Office: NSLP

Administering Office: U.S. Department of Agriculture, Food and Nutrition Service

Who May Apply (by category): State Education Agencies (SEAs)

Who May Apply (specifically): State Education Agencies (SEAs)

Type of Assistance (by category): Formula Grants

Appropriations (most recent information available): No information available

Program Details:

Legislative Citation: National School Lunch Act of 1946; Child Nutrition Act of 1966

Program Description: These two federally assisted meal programs, the National School Lunch Program (NSLP) and the National School Breakfast Program (NSBP) provide nutritionally balanced, low-cost, or free lunches to more than 30 million children each school day.

At the state level, the NSLP and NSBP are usually administered by SEAs, which operate the programs through agreements with local school districts. Public schools, nonprofit private schools of grades pre-K through high school, and residential childcare institutions are eligible. School districts and independent schools must serve lunches or breakfasts that meet federal nutrition requirements, and they must offer free and reduced-price lunches to eligible children.

Any child at a participating school may purchase a meal through the programs. For the lunch program, children from families with incomes at or below 130% of the poverty level are eligible for free meals. Those children from families with incomes between 130% and 185% of the poverty level are eligible for reduced-price meals, for which students can be charged no more than 40 cents.

Types of Projects: School districts and independent schools that choose to take part in the lunch program receive cash reimbursement and donated commodity assistance from the U.S. Department of Agriculture (USDA) for each meal they serve. Funds can be applied to the costs of food, preparation, and other expenses associated with the food service.

Education Level (by category): Pre-K, K-12

Community Facilities Direct Loan and Grant Program

Also Known As: The Community Facilities Program

Administering Office: U.S. Department of Agriculture, Rural Development

Who May Apply (by category): Public bodies, community-based nonprofit corporations, and federally recognized tribes

Who May Apply (specifically): Public bodies, community-based nonprofit corporations, and federally recognized tribes in the following eligible areas: rural areas including cities, villages, townships, and towns including federally recognized tribal lands with no more than 20,000 residents according to the latest U.S. census data are eligible for this program.

Type of Assistance (by category): Low-interest direct loans, grants, or a combination of the two, as well as the loan guarantee program. These may be combined with commercial financing to finance one project if all eligibility and feasibility requirements are met.

Appropriations (most recent information available): No information available

Program Details:

Legislative Citation: Direct Loans: 7 CFR Part 1942.17d; Grants: 7 CFR Part 3570.62

Program Description: This program provides affordable funding to develop essential community facilities in rural areas. An essential community facility is defined as a facility that provides an essential service to the local community for the orderly development of the community in a primarily rural area and does not include private, commercial, or business undertakings.

Types of Projects: Funds can be used to purchase, construct, or improve essential community facilities, equipment, and pay related project expenses.

Examples of essential community facilities include the following:

- Health care facilities, such as hospitals, medical clinics, dental clinics, nursing homes, or assisted living facilities
- Public facilities, such as town halls, courthouses, airport hangars, or street improvements
- Community support services, such as child care centers, community centers, fairgrounds, or transitional housing
- Public safety services, such as fire departments, police stations, prisons, police vehicles, fire trucks, public works vehicles, or equipment
- Educational services, such as museums, libraries, or charter schools
- Utility services, such as telemedicine or distance-learning equipment
- Local food systems, such as community gardens, food pantries, community kitchens, food banks, food hubs, or greenhouses

For a complete list, see Code of Federal Regulations 7 CFR, Part 1942.17(d) for loans; for grants, see 7 CFR, Part 3570.62.
Contact Information: See state level contacts here.

Chapter 3 | Federal and State Resources and Technical Assistance Providers

ED funds a variety of initiatives, field-initiated activities, and research that can support charter schools. To learn about technical assistance, research, and evaluation efforts coordinated by ED, visit the Program and Grantee Support Services section of the Office of Elementary and Secondary Education (OESE) website. The Office of Program and Grantee Support Services (PGSS) oversees the design and delivery of results-driven, differentiated, and research-informed technical assistance opportunities to all states and the U.S. territories (i.e., Guam, American Samoa, Saipan, and the U.S. Virgin Islands), including the Comprehensive Centers and Equity Assistance Centers.

This guide includes contacts for the following federally supported technical assistance providers:

1. Comprehensive Centers
2. Equity Assistance Centers
3. Office for Civil Rights, U.S. Department of Education
4. Regional Educational Laboratories

In addition, state education agencies and state-level charter support organizations can be key resources for charter schools. A list of state education agencies and charter support organizations, by state, follows the listing of federally supported entities.

Office for Civil Rights, U.S. Department of Education

The mission of the Office for Civil Rights (OCR) is to ensure equal access to education and to promote educational excellence throughout the nation through vigorous enforcement of civil rights. OCR enforces federal laws that prohibit discrimination on the basis of race, color, national origin, sex, disability, and age in programs and activities that receive federal financial assistance. OCR also enforces the Boy Scouts of America Equal Access Act, which generally addresses equal access to school facilities for the Boy Scouts and other designated youth groups. An important responsibility of OCR is investigating complaints of discrimination. In addition, OCR may initiate cases, typically called compliance reviews, to focus on specific compliance issues. OCR also provides technical assistance to help institutions achieve voluntary compliance with the civil rights laws that OCR enforces.

Regional Educational Laboratories

The network of 10 Regional Educational Laboratories (RELs) works to ensure that those involved in educational improvement at the local, state, and regional levels have access to the best available information from research and practice. Each lab serves a region so that, collectively, the network serves all regions of the country.

With support from the U.S. Department of Education, Institute of Education Sciences (formerly the Office of Educational Research and Improvement, or OERI), the Laboratories work as vital partners with state and local educators, community members, and policymakers in using research to tackle the difficult issues of education reform and improvement.
