

Idaho
Compilation of School
Discipline Laws and
Regulations

Prepared: January 26, 2018

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

General Provisions

Authority to develop and establish rules of conduct

LAWS

33-133. Definitions - Student data - Use and limitations - Penalties.

(4) The state board of education shall adopt rules to implement the provisions of this act.

33-205. Denial of school attendance.

The board of trustees of each school district shall establish the procedure to be followed by the superintendent and principals under its jurisdiction for the purpose of effecting a temporary suspension, which procedure must conform to the minimal requirements of due process.

33-512. Governance of schools.

The board of trustees of each school district shall have the following powers and duties:

(6) To prescribe rules for the disciplining of unruly or insubordinate pupils, including rules on student harassment, intimidation and bullying, such rules to be included in a district discipline code adopted by the board of trustees and a summarized version thereof to be provided in writing at the beginning of each school year to the teachers and students in the district in a manner consistent with the student's age, grade and level of academic achievement;

33-1224. Powers and duties of teachers.

In the absence of any statute or rule or regulation of the board of trustees, any teacher employed by a school district shall have the right to direct how and when each pupil shall attend to his appropriate duties, and the manner in which a pupil shall demean himself while in attendance at the school. It is the duty of a teacher to carry out the rules and regulations of the board of trustees in controlling and maintaining discipline, and a teacher shall have the power to adopt any reasonable rule or regulation to control and maintain discipline in, and otherwise govern, the classroom, not inconsistent with any statute or rule or regulation of the board of trustees.

33-1612. Thorough system of public schools.

The constitution of the state of Idaho, section 1, article IX, charges the legislature with the duty to establish and maintain a general, uniform and thorough system of public, free common schools. In fulfillment of this duty, the people of the state of Idaho have long enjoyed the benefits of a public school system, supported by the legislature, which has recognized the value of education to the children of this state.

In continuing recognition of the fundamental duty established by the constitution, the legislature finds it in the public interest to define thoroughness and thereby establish the basic assumptions which govern provision of a thorough system of public schools.

A thorough system of public schools in Idaho is one in which:

1. A safe environment conducive to learning is provided;
2. Educators are empowered to maintain classroom discipline;
3. The basic values of honesty, self-discipline, unselfishness, respect for authority and the central importance of work are emphasized;
4. The skills necessary to communicate effectively are taught;

5. A basic curriculum necessary to enable students to enter academic or professional-technical postsecondary educational programs is provided;
6. The skills necessary for students to enter the work force are taught;
7. The students are introduced to current technology; and
8. The importance of students acquiring the skills to enable them to be responsible citizens of their homes, schools and communities is emphasized.

The state board shall adopt rules, pursuant to the provisions of chapter 52, title 67, Idaho Code, and section 33-105(3), Idaho Code, to establish a thorough system of public schools with uniformity as required by the constitution, but shall not otherwise impinge upon the authority of the board of trustees of the school districts. Authority to govern the school district, vested in the board of trustees of the school district, not delegated to the state board, is reserved to the board of trustees. Fulfillment of the expectations of a thorough system of public schools will continue to depend upon the vigilance of district patrons, the dedication of school trustees and educators, the responsiveness of state rules, and meaningful oversight by the legislature.

Any pupil having been denied enrollment or expelled may be enrolled or readmitted to the school by the board of trustees upon such reasonable conditions as may be prescribed by the board; but such enrollment or readmission shall not prevent the board from again expelling such pupil for cause.

No pupil shall be expelled nor denied enrollment without the board of trustees having first given written notice to the parent or guardian of the pupil, which notice shall state the grounds for the proposed expulsion or denial of enrollment and the time and place where such parent or guardian may appear to contest the action of the board to deny school attendance, and which notice shall also state the rights of

Any pupil who has been suspended may be readmitted to the school by the superintendent or principal who suspended him upon such reasonable conditions as said superintendent or principal may prescribe.
