Agenda

1. Session Overview
2. What Does SMART Mean?
3. Toolkit Overview
4. SMART Objectives in Practice
5. What Does CSP Want to See?
Poll #1

Who thinks their current objectives are SMART?
Session Objectives

You will leave this session with an understanding of...

• What it means to create SMART objectives;
• How the NCSRC's new toolkit can help you develop SMART objectives;
• What CSP is looking for in your SMART objectives; and
• How to make your objectives SMARTer.
SMART Session Objective

NCSRC will facilitate a 45-minute webinar for CSP grantees highlighting the key components of its new SMART Objectives Toolkit. After the webinar, 80% of participants will report an improved understanding of SMART objectives and how to adapt their current objectives to be SMARTer. This will be measured through a survey distributed to participants immediately following the webinar.
On the Call Today

- Sharon Herpin, National Charter School Resource Center
- Carol Cohen, National Charter School Resource Center
- Courtney Leigh Beisel, National Charter School Resource Center
About the NCSRC

The National Charter School Resource Center (NCSRC) provides technical assistance to federal grantees and resources supporting charter sector stakeholders. NCSRC is funded by the U.S. Department of Education (ED) and managed by Manhattan Strategy Group in partnership with WestEd.
**But first... Goals vs. Objectives vs. Measures**

**Goals**
- High-level statements about what will be achieved through the project
- Goals defined for each grant program by the CSP
- Guide grantees throughout the project

**Objectives**
- Delineate the steps or strategies that will lead to fulfilling the goal
- Translate goals into actions and supporting performance measures specific to respective projects and plans
- Regularly reported to CSP to gauge progress

**Measures**
- Quantitative indicator, statistic, or metric used to gauge program performance
- Aligns with objectives to evaluate success
- Regularly reported to CSP to gauge progress

SMART Objectives

- **Specific**: Objectives are clearly and concisely stated, reducing the potential for misunderstanding or misinterpretation.

- **Measurable**: Objectives are measurable using valid and reliable data that are readily available and can be tracked at least annually.

- **Achievable**: Objectives are achievable and ambitious, reflecting an understanding of organizational capabilities and environments.

- **Relevant**: Objectives align with project goals and performance measures and reflect the mission and values of the CSP and grantee.

- **Timebound**: Objectives occur within a timeframe or by a target date for achieving the outcomes for long-term goals and short-term objectives.
SMART Protocol for Creating New Measures

**Step One**
Determine alignment with CSP goals and project objectives

**Step Two**
Identify Objectives

**Step Three**
Identify Metrics

**Step Four**
Provide a Baseline Measure

**Step Five**
Identify Performance Targets

**Step Six**
Put It All Together

**Step Seven**
Create Narrative

Test Your Knowledge – Question #1

Is this objective SMART?

Each year, 100% of charter school authorizers in the state will share their knowledge of effective practices at national conferences.
Test Your Knowledge – Question #2

Is this objective SMART?

Grantee will provide one technical assistance workshop annually that highlights the best practices in serving diverse student populations with 50% of the state’s charter schools attending.
Test Your Knowledge – Question #3

Is this objective SMART?

Increase retention of students who receive English Learner services attending charter schools.

Find out what it means to CSP...

1) In general, grantees may not remove a performance measure that was included in the original application, but grantees may clarify and specify measures to make them SMART.
   • Subject to ED review/approval

2) Many performance measures look at the results at the end of the grant, but grantees need to establish annual measures to review progress towards the end result.

3) At least one performance measure must be able to be reported on annually.
   • Review what data points will be available after the first year of the grant.

4) Performance measures must directly relate to the applicant’s original objectives.
Before you ask...

What about grantees’ APRs?

• Most grantees, with the exception of CE grantees, will have APRs due in April.
• Grantees should work on their measures NOW in advance of the APRs.
• You should now be in the process of collecting data for APRs.
